Droovee

Complete list of changes and updates

Everything to do next to make Droovee the best driver service in Bhubaneswar. Written in plain language, with tick boxes so you can track progress.

1. Where Droovee stands today

Already in place	Still missing
Clear homepage with a one-line promise Open price list Four-step "How it works" Launch offer banner Sign in and Create account Admin panel: Dashboard, Bookings, Drivers, Availability, Customers, Payments and reports, Coupons, Support tickets, Pricing and settings, Staff and roles, Audit log Booking IDs and statuses (Requested, Confirmed, Driver assigned) Overlap warning when assigning a driver	Booking without sign-in (Fast Booking) Phone / WhatsApp number on the site Trust section, reviews and FAQ Price calculator Coupon code shown for the Rs. 99 offer Footer with policies Admin that works well on a phone Instant alerts for new bookings Automatic WhatsApp messages Customer tracking page Simple page for drivers Local marketing and growth plans

2. Priority at a glance

Phase	Theme	When
Phase 1	Get more bookings: Fast Booking, trust, contact details, mobile admin	This week to 2 weeks
Phase 2	Never miss a booking: alerts, reminders, WhatsApp messages, tracking	Weeks 2 to 4
Phase 3	Build trust and quality: car photos, trip codes, ratings, driver page	Weeks 4 to 6
Phase 4	Grow the business: packages, corporate plans, SEO, referrals	Weeks 6 to 10
Phase 5	Run it like a company: policies, training, insurance, reports	Ongoing

3. Phase 1: Get more bookings

3.1 Fast Booking (no sign-in)

Customers should be able to book in under a minute without creating an account. Make it the main button on the homepage. Sign in stays optional.

Field	Required?	Notes
Full name	Yes	
Mobile number	Yes	Verified with a one-time code (OTP) to stop fake bookings.
WhatsApp number	Optional	Tick box "Same as mobile".
Service type	Yes	Hourly, half-day, full-day, outstation one way / round trip, airport-railway-bus stop, monthly.
Pickup address + landmark	Yes	Later add a map pin.
Drop address	Optional	Needed for outstation and airport.
Date and start time	Yes	Or switch "Need a driver now".
Duration or number of days	Yes	Hours for local; days and return date for outstation.
Night halt needed?	Outstation	Adds the night-halt charge.
Car make and model	Yes	Helps pick the right driver.
Gear type	Yes	Manual or automatic.
Car number	Optional	
Alternate contact number	Optional	Family or office.
Driver language	Optional	Odia, Hindi, English.
Coupon code	Optional	Auto-fill the launch offer.
Payment preference	Yes	Online, or cash/UPI.
Special notes	Optional	
Agree to Terms and Cancellation policy	Yes	One tick box.

After the customer presses Book

- Show an estimate (clearly marked as an estimate) before confirming.
- Show the booking ID and send it on WhatsApp or SMS.
- Message: "Our team will confirm your driver shortly."
- Link to "Track my booking" (mobile number + booking ID).
- Optional prompt: "Create an account to save your details."

Protections against fake bookings

- OTP on the mobile number.
- Limit on bookings per number or device per hour.
- Spam check (CAPTCHA).

- Staff call back first-time customers before assigning a driver.
- Advance payment for long outstation trips, if the company wants it.

3.2 Other Phase 1 updates

Done	Update	What it does / why
[ ]	Fast Booking form and Track my booking page	Main button on homepage and a status page without password.
[ ]	"Create booking" button in the admin panel	For customers who call or WhatsApp. Staff enter the booking in under a minute and mark the source (call, WhatsApp, website).
[ ]	Phone and WhatsApp number everywhere	Floating "Call / WhatsApp" button on every page. Right now the site has no number.
[ ]	Trust section	Verified drivers, police verification, trained and salaried drivers, insurance, uniform photos.
[ ]	Show the coupon code	The Rs. 99 offer says "with a coupon code" but the code is hidden. Show it or apply it automatically.
[ ]	Footer	Contact, address, Terms, Privacy, Cancellation and Refund policy. The page currently ends with a blank space.
[ ]	Price calculator	Customer picks service and hours and sees the total, including night charge.
[ ]	FAQ and About page	Tolls, fuel, damage, lateness, who the company is, address.
[ ]	Mobile-friendly admin	On a phone, the side menu takes a quarter of the screen. Turn it into a menu button so the owner can work from a phone.
[ ]	Remove "Admin sign-in" from the public footer	Use a private link for staff.

4. Phase 2: Never miss a booking

Done	Update	What it does / why
[ ]	Instant alert on every new booking	To the owner on WhatsApp, Telegram or email, with a sound alert inside the admin.
[ ]	Reminder if a booking is not assigned in 10 minutes	Keeps the response time fast.
[ ]	Red warning for jobs starting within 2 hours with no driver	Shown at the top of the dashboard.
[ ]	Today's schedule on the dashboard	Which driver is on which job, who is free now, and who is on leave.
[ ]	Revenue today / this week on the dashboard	Quick view of money, with cash vs online.
[ ]	Search bar and quick filters	Find a booking by phone number, name or ID.
[ ]	One-tap Call and WhatsApp buttons	On every customer and driver in the admin.
[ ]	Automatic WhatsApp / SMS to the customer	Booking received, confirmed, driver assigned (name, photo, number), driver on the way, trip completed.
[ ]	Driver reminder	Message to the driver the evening before and one hour before the job.
[ ]	Live online payment, receipts and invoices	PDF receipt for every trip. GST invoice for monthly clients.
[ ]	Refund and cancellation handling	Follow the approved policy and record who did it.
[ ]	Daily backup and uptime check	So data is never lost and downtime is noticed quickly.

5. Phase 3: Build trust and quality

Done	Update	What it does / why
[ ]	Pre-trip car photos by the driver	Photos of the car before the trip protect both sides in a damage dispute.
[ ]	Start and end trip codes	Customer shares a 4-digit code with the driver to start and end the trip.
[ ]	Simple driver page (a link, no app)	Driver opens a link to confirm the job, mark "on the way", "arrived", "started" and "completed".
[ ]	Share-trip link for family	Family can see the driver name and status.

Done	Update	What it does / why
[ ]	Ratings and reviews after every trip	Shown on the website. Low ratings alert the owner.
[ ]	Driver profile cards	Photo, name, years of experience and languages, shown to the customer once assigned.
[ ]	Support tickets by WhatsApp	Customers can raise issues easily. Target reply time written on the site.
[ ]	Emergency procedure	Accident, breakdown, or driver unreachable: one clear plan, one number to call.

6. Phase 4: Grow the business in Bhubaneswar

Done	Update	What it does / why
[ ]	Late-night "sober driver" service	Own car driven home safely after a party or drinks. Promote through restaurants, bars, hotels and wedding venues.
[ ]	Ready-made packages with fixed prices	Puri, Konark, Cuttack, airport drop, wedding day, hospital visits for parents, school or office runs.
[ ]	Corporate and monthly plans	Offices, hospitals, car showrooms, schools. Monthly invoice with GST. Steady income.
[ ]	Local search (SEO) pages	"Driver on hire in Bhubaneswar", "Airport driver", "Outstation driver". Add Odia language option.
[ ]	Google Business Profile	Photos, hours, phone number and reviews. Free and very powerful for local business.
[ ]	Referral and repeat-customer rewards	Referral code, discount on the 5th booking, festival offers through the Coupons module.
[ ]	Partnerships	Car dealers, car service centres, hotels, hospitals, event planners, travel agents.
[ ]	Social media and short videos	Driver introductions, safety rules, customer stories, price explainers. Use the promo video made earlier.
[ ]	WhatsApp Business catalog	Services and prices inside WhatsApp for quick sharing.
[ ]	Android app (later)	Only after steady bookings. The mobile website already works.

7. Phase 5: Run it like a real company

Done	Update	What it does / why
[ ]	Written policies	Cancellation, refund, late-arrival, waiting charge, damage and fine responsibility.
[ ]	Driver hiring checklist	ID, licence, police verification, test drive, references, and a signed code of conduct.
[ ]	Driver training and uniform	Customer behaviour, safe driving, handling luggage, phone use, language.
[ ]	Insurance	Check cover for driver, customer car and passengers. Show it on the site.
[ ]	Monthly reports	Bookings, cancellations, revenue, popular services, driver usage, rating trends.

Done	Update	What it does / why
[ ]	Customer feedback review	A short weekly review of complaints and what to fix.
[ ]	Security and privacy	Limit who sees phone numbers and documents. Keep the audit log on. Publish a privacy notice.

8. Decisions to make before building

Question	Your decision
Who pays tolls, parking and fuel on outstation trips?	
Who pays the driver's food, stay and return travel?	
Who is responsible for car damage or a traffic fine?	
Minimum booking time (for example 2 hours)?	
Notice needed for scheduled bookings?	
Waiting charge if the customer is late?	
When is payment taken: before, after, or only for long trips?	
Cancellation fee and refund rules?	
Instant confirmation, or only after a driver is assigned?	
Which driver details does the customer see, and when?	
Area covered and any distance limit?	
Target time to confirm a booking (for example 10 minutes)?	

9. Rule for the best service

- **Trusted:** proof of safety, not just words.
- **Fast:** book in under a minute, confirm in minutes.
- **Clear:** one price, shown upfront.
- **Reliable:** no missed bookings, no late drivers, no surprise charges.
- **Cared for:** good training and pay for drivers means better service.

Timings and prices are suggestions. The company should confirm all business rules before launch.
